-----------------------------------	-----------

Bracelets

I began my jewelry business by making bracelets. As such, they are some of my favorite creations. I personally select each element of the bracelet, stringing together a unique and stunning arrangement every time. I work incredibly fast, assembling each piece in 45 minutes to an hour.

\$7

Endless Colors

My bracelets come in every color and color combination imaginable. Even the beads and accents often sport slick patterns, adding further flair to the bracelet. People will be jealous of your wrists the moment you walk into the room.

Starting at \$10

Countless Kinds

My collection isn't limited to one type of bracelet. If you're in a playful mood, I have bracelets with holiday themes, lovely charms, or your name on them. If you're in a casual mood, you can choose a simple bracelet without embellishments.

Clasp Choices

Bracelet closures, called clasps, are yet another option . My standard clasp is the toggle. You will love the adorable variations on the typical bar-and-circle toggle, such as the cupid bow and arrow or the sundial. You can also find other common clasps in my creations including the lobster clasp, the slide lock clasp, the spring ring clasp, and the magnetic clasp.

Special Requests

Despite the overwhelming options available, it's possible that you will want a specific combination of color, beads, and other elements that I don't have. Just tell me what you're looking for, and I'll do my best to make it. Because of the additional work involved, special requests cost extra.

Starting at \$10

Earrings and Necklaces

A line of magnificent earrings and necklaces round out my individual jewelry creations. Like their bracelet counterparts, these appealing pieces come in a variety of styles for a variety of situations.

Starting at \$3

Earrings

My earrings come with one, two, or three beads. My most popular earring back is the fish hook, which allows the earring to gracefully sway in time to the bounce in your step. Push back and screw-on earring backs are available as well.

Starting at \$20

Necklaces

Your ensemble isn't ready to wear without one of my spectacular necklaces adorning your throat. They come in three different lengths: short (14"), medium (16 to 18"), and long (22"). A lobster clasp or a magnetic clasp are standard.

2-Piece Sets

A single piece of jewelry isn't always enough to make you shine. For those special occasions, you can put aside your stand-alone pieces and upgrade your look with one of my jewelry sets. Two-piece sets are available in bracelet/earring or necklace/earring configurations.

Starting at \$10

Bracelet/ Earrings Set

Instead of trying to find earrings from my existing collection to go with your bracelet, get a pair of earrings specially made to match your bracelet in one valuable set.

Starting at \$15

Necklace/ Earrings Set

My necklace and earring set is an attractive addition to your gorgeous selfies. Alternatively, you can eliminate the earrings and enhance your necklace with a fabulous bracelet (at an additional cost.)

Complete Sets

If you frequently mix and match pieces, one of my complete sets is an outstanding deal. These sets gather every type of jewelry I make—bracelet, earrings, and necklace—into one impressive package. Complete sets come as 3-piece sets or ultimate sets.

\$40

3-Piece Set

The standard configuration for a 3-piece set is a matching set of a bracelet, earrings, and a necklace. It is possible to purchase sets with two bracelets or two earrings at an additional cost.

Starting at \$60

Ultimate Set

The Ultimate Set is an extravagant collection of jewelry. It contains two bracelets, three pairs of earrings, and a necklace, produced in a matching scheme. This set is available only as a special order.

2-Strand Pieces

Two-strand pieces are the most exquisite designs in my collection. This type of jewelry, which is available as a necklace or bracelet, adds an extra string of beads to form a sophisticated work of art. Two-strand pieces are limited-edition items that sell out quickly at events.

Bracelet

The two-strand bracelet is a rare gem, available only as a special order. It features a toggle closure. The toggle's lone circle anchors the two independent yet identical strings of beads. Earrings do not come standard with the two-strand bracelet.

\$10

\$30

Necklace Set

The two-strand necklace set is a superb accessory for accentuating your look. Its double strings of beads hanging at different lengths, essentially making it two necklaces in one. A pair of matching earrings tops off this classy set.

Birthday Parties

Birthday parties are one of the celebrations for which I provide services. I focus on the aesthetics, making sure that your party looks amazing. These items are part of a specialized package. Prices vary based on the specific pieces you require. Please schedule a consultation with me for more information.

Wishing Wells

Customized with the colors of your choice and photos of your loved one, the wishing well is an extraordinary party prop. The well is a secure place to store cards from guests, preventing your gifts from being lost or stolen in the hectic party environment.

General Decorations

Every birthday party needs delightful decorations to set the tone. Once you have selected your venue, I can deck out the area in ways that will leave your guests in complete awe. Example decorations include balloons, artificial flowers, garland, and signs.

Table Settings

The venue isn't the only part of your party that needs attention. You will want to wow your guests with your wonderful table settings. I recommend one of my dazzling centerpieces, followed by napkins, plates, utensils, and a table cloth coordinated to your theme.

Weddings

Weddings are one of the happiest events in a person's life. Let me ease the stress of your day with my imaginative wedding wares. These items are part of a specialized package. Prices vary based on the specific pieces you require. Please schedule a consultation with me for more information.

Bouquets

A bride's bouquet is second only to the wedding dress in importance. It needs to be as awe-inspiring as possible. When I make your bouquet, you will walk down the aisle knowing that you're holding a one-of-a-kind showstopper. I also make bouquets for bridesmaids.

Accessories

Those in your wedding party need props as well. For your flower girls, I have lovely baskets and headbands. And where would your ring bearer be without his ring pillow? Your friends and family can sign in with a customized guest book.

Wedding Favors

You guests will enjoy having small tokens to take home with them after the ceremony. Some of the favors I've made are lace-covered spoons filled with candy, tiny silver bells, and bottles of bubbles. Each piece has a personalized card with the couple's names and the ceremony's date attached .

“Jumping the” Brooms

An enchanting broom is crucial for the moment when you and your spouse perform the “jumping the broom” wedding tradition. Such brooms are a new addition to my wedding repertoire. My brooms are majestic yet robust, dressed with top-notch materials and fashioned with three merged brooms for maximum stability.

Diaper Cakes

While I can make all manner of decorations for your upcoming baby shower, diaper cakes are my specialty. Diaper cakes are charming centerpieces created from baby-related items—lotions, toys, and yes, diapers—molded into the shape of a multitier cake. Diaper cakes take three weeks to complete, so please order early to make sure it will be ready for your party.

Pick Your Theme

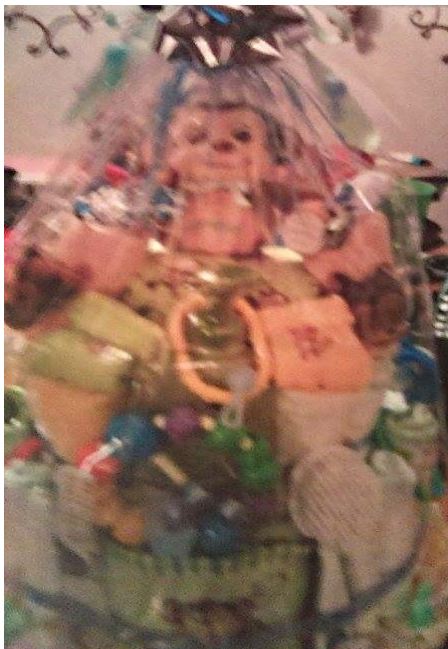

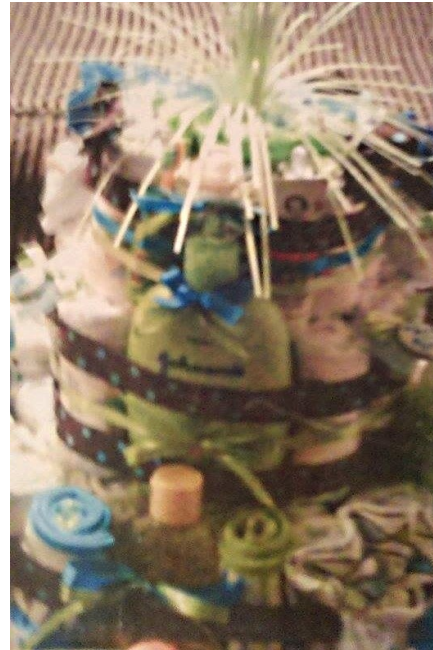

Instead of a cake with generic baby items, you can request a specific theme. For instance, you may prefer to focus on colors or objects geared toward your baby's gender, a character from a children's book or TV show, or even your favorite animal.

Starting at \$50

Pick Your Size

Diaper cakes come in small, medium, or large. The size of the cake determines the amount of materials I will use and the number of tiers. A basic small cake is three tiers while medium and large cakes are four and five tiers respectively.

Pick Your Wrapping

All diaper cakes come topped with a large bow for decoration and wrapped in cellophane for safe transportation. The cellophane is clear by default, and the bow matches the cake's theme. As usual, you have input on the colors for these extras.

Miscellany

There are few things that I cannot make. Many of these items don't fit into a particular category. Rather than try to list them all, I will give you a small taste of other creations that might catch your eye. Remember: ask me if there's something special you're interested in obtaining.

Starting at \$75

Scrapbooks

Regular photo albums are great; my scrapbooks are breathtaking. Armed with your personal pictures, 3-D effects, and decorative flourishes, I assemble a photographic experience that will blow your mind. Scrapbooks are available in small, medium, or large albums.

Children's Crafts

During my time as a certified preschool director, I spent many hours working on projects with the children: picture frames, cards, paper animals, etc. I still know my way around a pack of construction paper. My precious crafts make perfect gifts for your children to give to their grandparents and relatives.

Keychains

Add one of my charming keychains to your key ring. I hand-braid strips of plastic together around large beads. You can have a plain keychain or a personalized keychain featuring your name (six-letter maximum).

Starting at \$7

Holidays

Holidays have always been joyful times in my family. Unsurprisingly, my holiday creations are my most elaborate and exciting pieces. For example, you can immerse yourself in the holiday spirit with my ornaments, candle sets, and tree toppers or jazz up your doors, windows, and walls with my festive Christmas wreaths. Thanksgiving, Mother's Day, the Fourth of July—I have something marvelous for them all.

Starting at \$40
